

Affigent

AN AKIMA COMPANY

Taking the Complexity Out of IT

Affigent is a turnkey IT solutions provider dedicated to helping agencies modernize their IT infrastructure while simultaneously improving security and delivering mission-serving solutions faster and at a lower cost.

Because our engineers, architects and technology partners have experience at all critical points across the enterprise, we can help you exactly when and where you need it most. It may be a cloud assessment, a physical or cyber security issue, or a need to upgrade your network...where we start is up to you.

What is important is that together we finish with a stronger, more responsive enterprise and discernibly superior mission outcomes.

Our Capabilities

Cloud

Whether your end game is leveraging cloud infrastructure or delivering smart insights through cloud-based analytics and Artificial Intelligence, Affigent will work tirelessly alongside you to deliver the ideal balance of performance, availability, security and cost.

About Affigent

Affigent is an Alaska Native Corporation (ANC), a Small Disadvantaged Business (SDB) and a wholly owned subsidiary of Akima. Headquartered in Herndon, Virginia, Akima supports a network of over three dozen socioeconomically disadvantaged small businesses through an innovative shared services model that provides business processes and shared back-office support at a level akin to that found in a Fortune 500 defense contractor. This enables Akima's portfolio of companies to operate as a small business in terms of autonomy, customer interaction and decision making, while receiving support from a global enterprise with decades of experience working with the federal government.
